Our default color space is Adobe RGB, but can use a different one upon request. All files will be scanned at 5000DPI native resolution (unless otherwise specified). For Large Format we will scan up to a 2GB file size but can stitch to make a bigger file for an extra charge. Everything is saved as a 16bit tiff or PSB file.

Please put the image frame number and/or description off the frame in the description field below.

Files can be sent either through a file sharing site of your choice (where available) or copied to a flash or hard drive. We can provide a flash drive if needed for an additional charge.

Title/Description/Frame Number	Film Format	Quantity	Price

INFO:

All scans are checked for sharpness but no unsharp masking is done unless requested. We scan to a 16 bit tiff file.

NEGATIVE & TRANSPARENCY FILM:

Adobe RGB color space is applied. Negative film is converted to a positive state. Levels are set. Light post-scan cleanup and/or color-tonal correction is included. Black and white films are left in RGB or converted to Grayscale if requested.

RETOUCHING/FILE MASTERING:

Although most scratches and some dust is removed from the transparency through the wet mounting process, there may be some inherent in the scan. We try to remove as much as we can but will perform further retouching to fully spot and color correct your files for an additional fee if needed.

RAW SCANS:

Raw scans are available upon request. They are offered at a discount of 20% and do not include retouching, corrections, or levels being set.

BULK ORDERS AND BIGGER PROJECTS:

These are offered at a substantial discount based on quantity and requirements. For any orders over 20 images a 50% deposit is required.

DELIVERY:

Free Pickup in LA

Ship Via USPS

Ship Via Fedex

PAYMENT:

We accept Paypal, Venmo, or Cash. An invoice with payment details will be sent to the email address provided. All shipping charges are additional and will be added to your total.

SILVERCHROMA IMAGING AGREEMENT: Submitting a photographic material to Silverchroma constitutes an agreement between you and Silverchroma, that any damages or loss caused by Silverchroma, even due to our negligence or fault, will entitle you only to replacement with like amount of scanning services. Except for such replacement, the acceptance of the photographic materials is without other warranty or liability, expressed or implied, and recovery for any incidental or consequential damages are excluded. By submitting photographic materials to Silverchroma, you declare the value of your photographic materials to be no more than its replacement as stated above.

Your signature signifies that you have read and agree to Silverchroma's Imaging Agreement as written above.
